

DID YOU KNOW?

The grasslands reflect the area's long-history of cattle and sheep grazing.

Abundant wildlife feed in the Preserve.

There were stagecoach "fare wars" for passengers going to and from Julian.

The oak woodlands were an essential feature of Native American settlement and trade patterns in the area.

RAMONA GRASSLANDS PRESERVE RESOURCE MANAGEMENT & PUBLIC ACCESS PLANS

The Planning Process

The County of San Diego Department of Parks and Recreation is developing a Resource Management Plan and a Public Access Plan for the 3,490-acre Ramona Grasslands Preserve. This involves compiling information on the Preserve's existing resources, proposing ways to sustain those resources over time, and identifying opportunities for the public to access and enjoy this open space.

Project Update—October 2009

Our team has been busy since early 2009 conducting baseline inventories of the Preserve's biological and cultural resources. We need this information before we can develop plans for resource management and public access. This inventory work includes:

- Vegetation mapping
- Field surveys for plants and wildlife
- Record searches and field surveys for historic and prehistoric resources

Public Workshop

We seek your input on the Ramona Grasslands Preserve. Please join us at the Ramona Community Center at 434 Aqua Lane, Ramona, CA, 92065 on November 18, 2009 at 6:00 PM, where you can:

- Speak with members of our team about the Ramona Grasslands Preserve
- Learn more about the Preserve's resources
- Share your thoughts on the Preserve's unique features
- Let us know where in Ramona Grasslands you would like to go, and what you would like to see and do there

PUBLIC WORKSHOP

11.18.2009

Ramona Community Center 6:00 pm
